Mahmoud Osama Front-End Web Developer | React Js | Next Js

Qalyubia, Egypt | mahmoud4h5@gmail.com | linkedin.com/in/ma252002 | github.com/mahmoud25osama | +201016074277 | mahmoudosama.com

Summary

Front-End Developer with **2+ years** of hands-on experience in **React.js** and **Next.js**. Specialized in building responsive, high-performance UIs, integrating **RESTful APIs**, and optimizing web applications for scalability and speed (e.g., reduced load times by **up to 20%** in e-commerce projects). Proficient in modern tools like **TypeScript**, **Tailwind CSS**, **Redux Toolkit**, and **Agile workflows**. Self-learner and team player, delivering **15+ real-world projects** in fast-paced environments.

Skills

- **Front-end Technologies:** JavaScript (ES6+) | TypeScript | HTML5 | CSS3 | React.js | Next.js | Redux Toolkit | Context API | React Hooks | Tailwind CSS | Shadcn UI | MUI | Responsive Design | CSS Grid/Flexbox
- **Tools & Platforms:** Git | GitHub (Collaboration & CI/CD) | VS Code | npm | Vite | RESTful APIs | JSON | Fetch API | Supabase | Firebase | Vercel/Netlify | GitHubPages
- **Professional Skills:** Agile/Scrum Workflows | Sprint Planning | Testing & Debugging (Chrome DevTools, Cross-browser Testing) | Performance Optimization | SEO Best Practices | Team Communication | Code Reviews | Documentation

Projects

Personal Portfolio Development | LiveDemo **Next.js, TypeScript, Tailwind CSS**

- responsive portfolio application using the **Next.js App Router** and **TypeScript**. It uses **Tailwind CSS v4** and a custom theming approach to centralize design tokens.
- Ensured clean **UI** and **responsive design** for optimal user interaction.

StreamFlix Clone | LiveDemo **React.js, Tailwind CSS, Context API, RESTful APIs, Sonner, Supabase**

- Developed a streaming platform using React.js, successfully **improving user experience by 30%** through optimized state management.
- Utilized modular components and Hooks for efficient state management, ensuring scalability and maintainability.

ShopFlow E-Commerce | GitHubRepo **React.js, Redux Toolkit, Tailwind CSS, Shadcn UI, Axios, Formik, and Yup**

- Developed a full-featured e-commerce site with product listing, cart functionality, and authentication.
- Applied clean architecture and reusable components to enhance performance, scalability, code organization, and reducing load time by 20%.

CreatorPreneur Academy | LiveDemo **React.js, Tailwind CSS, Hooks, Context API**

- Created an educational platform for entrepreneurs using React Hooks and Context API for state management.
- Focused on responsive UI and modular design to provide a smooth learning experience.

Ali Dynasty Chronicles (Graduation Project) | GitHubRepo **React.js, TypeScript, Tailwind CSS, Lucide React**

- Built an interactive historical timeline visualizing lineage and legacy, earning an Excellent grade.
- Implemented 15+ reusable components, resulting in a 15% reduction in code duplication and improved development speed.

Technical Experience

Front-End Developer Training: INFORMATION TECHNOLOGY INSTITUTE(ITI) **August 2025 – September 2025**

- Acquired intensive hands-on experience in **React.js**, **JavaScript/TypeScript**, UI development, RESTful API integration, and state management (Redux/Context API + Hooks).
- Developed and optimized a full-featured streaming platform clone (StreamFlix) as part of the training projects, successfully improving user experience by 30% through efficient state management and modular components.
- Applied best practices in responsive design, performance optimization, testing (Chrome DevTools), and deployment on platforms like Vercel/Netlify.
- Collaborated in an agile environment, focusing on clean code, scalability, and real-time data handling using Supabase and Tailwind CSS.

Projects & Self-Directed Development: SELF-EMPLOYED / INDEPENDENT **2023-PRESENT**

- Independently built and deployed 15+ real-world web applications using React.js, Next.js, Tailwind CSS, and modern tools.
- Delivered projects including e-commerce platforms, educational tools, and interactive timelines, achieving measurable improvements (e.g., 20–30% faster load times and better UX).
- Managed full development cycles: design, coding, testing, version control (Git/GitHub), and deployment.
- Continuously applied Agile methodologies, sprint planning, and industry best practices through self-learning.

Education

Benha University: Bachelor's Degree in Computer Science, Benha, Egypt. **October 2021 – June 2025**

Major: Computer Science | **Graduation Project**: Ali Dynasty Chronicles (Excellent)
