Mahmoud Osama Mohamed Ebrahim

Full-Stack MERN Developer | React.js | Node.js | MongoDB
Qalyubia, Egypt | mahmoud4h5@gmail.com| linkedin.com/in/ma252002 | github.com/Mahmud-O| +201016074277

SUMMARY

Highly motivated Full-Stack MERN Developer Trainee with 2+ years of experience in front-end development (React.js, Next.js, TypeScript, Tailwind CSS) and rapidly expanding expertise in back-end technologies (Node.js, Express.js, MongoDB). Proven ability to develop responsive, high-performance web applications and robust RESTful APIs, optimizing for scalability and speed (e.g., reduced load times by up to 20%). Skilled in Redux Toolkit, Agile methodologies, and collaborative development, committed to delivering innovative full-stack solutions.

SKILLS

Front-end: JavaScript (ES6+) | TypeScript | HTML5 | CSS3 | React.js | Next.js | Redux Toolkit | Context API | React Hooks | Tailwind CSS | Shadcn UI | MUI | Responsive Design | CSS Grid/Flexbox
Back-end: Node.js | Express.js | MongoDB | Mongoose | RESTful API Development | Authentication (JWT)
Tools: Git | GitHub (Collaboration & CI/CD) | VS Code | npm | Vite | RESTful APIs | JSON | Fetch API | Supabase | Firebase | Vercel/Netlify | GitHubPages
Professional: Agile/Scrum Workflows | Sprint Planning | Testing & Debugging (Chrome DevTools) | Performance Optimization | SEO Best Practices | Team Communication | Code Reviews | Documentation

PROJECTS

Personal Portfolio Development | LiveDemo *(React.js, TypeScript, Tailwind CSS)*

- Responsive portfolio application using React.js and TypeScript. Uses Tailwind CSS v4 and custom theming.
- Ensured clean UI and responsive design for optimal user interaction.

StreamFlix Clone | LiveDemo *(React.js, Tailwind CSS, Context API, RESTful APIs, Sonner, Supabase)*

- Developed a streaming platform using React.js, improving user experience by 30% through optimized state management.
- Utilized modular components and Hooks for efficient state management, ensuring scalability and maintainability.

ShopFlow E-Commerce | GitHubRepo *(React.js, Redux Toolkit, Tailwind CSS, Shadcn UI, Axios, Formik, and Yup)*

- Developed a full-featured e-commerce site with product listing, cart functionality, and authentication.
- Applied clean architecture and reusable components to enhance performance, reducing load time by 20%.

Ali Dynasty Chronicles (Graduation Project) | GitHubRepo *(React.js, TypeScript, Tailwind CSS, Lucide React)*

- Built an interactive historical timeline visualizing lineage and legacy, earning an Excellent grade.
- Implemented 15+ reusable components, resulting in a 15% reduction in code duplication.

TECHNICAL EXPERIENCE

MERN Stack Developer Trainee | Jan 2026 – Present
Digital Pioneers Initiative (Digilians) - Egyptian Military Academy, Cairo, Egypt

- Participating in a comprehensive MERN stack training program (MongoDB, Express.js, React.js, Node.js).
- Developing full-stack applications, focusing on database design, API creation, and seamless integration.

Front-End Developer Training: INFORMATION TECHNOLOGY INSTITUTE (ITI) | Aug 2025 – Sep 2025

- Acquired intensive hands-on experience in React.js, UI development, RESTful API integration, and state management.
- Developed and optimized a full-featured streaming platform clone (StreamFlix) as part of the training projects, successfully improving user experience by 30% through efficient state management and modular components.

EDUCATION & LANGUAGES

Benha University: Bachelor's Degree in Computer Science | *Oct 2021 – June 2025*
Major: Computer Science | Graduation Project: Ali Dynasty Chronicles (Excellent)

Languages: Arabic (Native) | English (Upper-Intermediate)
